CAREER OBJECTIVE

B.Tech student in Artificial Intelligence and Machine Learning with interests in Data Analytics, Web Development, and Artificial Intelligence. Passionate about leveraging technology to solve real-world problems, analyze data for meaningful insights, and develop user-centric applications. Seeking internship opportunities to apply technical skills, gain practical experience, and contribute to innovative projects.

TECHNICAL SKILLS

- Web Development: HTML, CSS, JavaScript
- Data Analytics: Microsoft Excel, Data Visualization, Business Analytics
- Tools & Platforms: Git, GitHub, VS Code
- AI & Productivity: Prompt Engineering, AI Applications
- Other Skills: Cybersecurity Fundamentals, Problem Solving, Team Collaboration, Communication

PROJECTS

Student Freelance Hub (Project Lead)

- Developed a platform connecting students with freelance opportunities and internships.
- Designed Login, Signup, and Job Listing interfaces.
- Built using HTML, CSS, JavaScript, GitHub, and modern web technologies.
- Successfully led the project team and coordinated development activities.

BeginUPSC Website

- Developed a responsive educational platform for UPSC aspirants.
- Designed and implemented Login and Signup modules.
- Enhanced user experience through structured layouts and responsive design.
- Built using HTML, CSS, and JavaScript.

Personal Portfolio Website

- Created a portfolio website to showcase projects, certifications, and technical skills.
- Developed using HTML, CSS, and JavaScript with a responsive design.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern | StudentForge | Present

- Working as a Full Stack Developer Intern at StudentForge.
- Contributing to the development of web-based applications and student-focused platforms.
- Assisting in frontend development using HTML, CSS, and JavaScript.
- Collaborating with team members on project planning, development, and testing.
- Gaining hands-on experience in web development, problem-solving, and software project workflows.
